DETAILED ACTION

1. This action is responsive to amendment filed 08/12/04.
2. Claims 2, 7, 22 and 27 have been canceled; accordingly, claims 1, 3-6, 8-21, 23-26 and 28-40 are pending in the application.

Reasons for Allowance

3. Claims 1, 3-6, 8-21, 23-26 and 28-40 are allowed.
4. The following is an examiner's statement of reasons for allowance:

Claim 1 discloses a method of modifying a geometric shape, comprising: defining a multi-dimensional space an array of values representing a geometrical shape; selecting a modification function; applying an inverse function of the modification function to the array of values to produce a modified array; deducing from the modified array a modification of the geometrical shape that would result from a direct application of the modification function to the array; and applying the resulting modification by manipulation of a virtual tool; wherein the geometrical shape is displaced with respect to the virtual tool. The closest prior art Milliron teaches geometric warps, deformation by using modification function and applying inverse function of the modification function to produce a modified array; however, Milliron does not teach deducing from the modified array a modification of the geometrical shape that would result from a direct application of the modification function to the array; applying the resulting modification of the geometrical shape by manipulation of a virtual tool; wherein the geometrical shape is displaced with respect to the virtual tool. For these reasons, claim 1 is allowed.

Art Unit: 2671

Claim 21 discloses a system for modifying a geometrical shape comprising the modules for performing the method steps of claim 1; therefore, claim 21 is allowed under the same reasons set forth in claim 1.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
